TAPE DISPENSERS

THE **BEST** WAY TO SEAL YOUR CARTONS!

Since 1917, Better Packages has set industry standards with its durable Better Pack brand of water-activated tape dispensers and carton sealing solutions. Government agencies and businesses representing a multitude of industries worldwide know the best way to seal their cartons is by using Better Pack dispensers and water-activated tape. Built with unrivaled safety features, our electric water-activated tape dispensers are built to meet or exceed UL, CE, CSA and/or ETL regulatory requirements for electrical and operational safety. With millions of water-activated tape dispensers sold, the Better Packages name has become synonymous with unmatched innovation, quality, design, and reliability.

ELECTRIC WATER-ACTIVATED TAPE DISPENSERS

Better Pack® 555e Series

Fully programmable with a color-coded keypad, the Better Pack 555e Series is easy to use and offers the most options and highest level of automation available from the Better Pack dispenser family. The Automatic Tape Advance Feature reduces material waste and improves worker efficiency, especially when sealing random sized cartons in fast-paced, high-volume packaging operations. The 1,000 foot tape capacity means fewer changeovers, less downtime, greater productivity. UL Approved and Listed, meets or exceeds CE and CSA standards for operator and electrical safety. RoHS compliant. Made in the USA.

Accessories: Tape Aerial, Foot Pedal, CodeTaper

Better Pack® 500

With fast tape output of 45 inches per second and a smooth-touch tactile keypad with 14 preset lengths, the Better Pack 500 delivers reliable, robust performance wherever speed and simplicity are needed. 2X and random length keys provide additional one-touch dispensing for tape lengths up to 120 inches. The 500 is a simple, straightforward machine that meets or exceeds UL, CE, CSA and/or ETL standards for operator and electrical safety.

Accessories: CodeTaper

Better Pack® 755e Series

These durable workhorses excel in demanding work environments. A 4-inch wide tape capacity allows for a strong, secure seal — ideal for packages containing heavy, bulky items. The 64 ounce water bottle capacity provides greater productivity and efficiency. The 755eS has a smooth-touch keypad with 20 preset lengths, plus a random button for continuous, uninterrupted dispensing. The 755eSA's user adjustable length knobs allow for dispensing up to 100 inches of tape. Choose from three dispensing modes: manual, auto-repeat or 1-2-2 (H-pattern). Customize dispensing speed by setting 1-30 second delay in auto-repeat mode. UL Approved and Listed, meets or exceeds CE and CSA standards for operator and electrical safety. RoHS compliant. Made in the USA.

MANUAL WATER-ACTIVATED TAPE DISPENSERS

■ Better Pack® 333 Plus

With over one million sold, the world's #1 selling water-activated tape dispenser offers durable steel frame construction, superior mechanics and simple operation. The Better Pack 333 Plus is built to last and is engineered to provide years of consistent, reliable performance. The dispenser is perfect in shipping areas without electricity, handling light to medium volumes. Choose one of the 15 preset tape lengths from the clearly marked dial to dispense up to 30 inches of tape in one stroke, longer lengths with multiple strokes.

Accessories: CodeTaper, Top Heater

■ Curby® Mini-Taper (BP222)

The Curby Mini-Taper is a sleek, lightweight manual water-activated tape dispenser with a small footprint. Weighing only 6 pounds, it is perfect for small office or home office, retail outlets and low-volume shipping environments with limited workspace. This dispenser is economically priced, easy to operate and the tape is simple to load. Paired with curbside recyclable water-activated tape, the Mini-Taper is part of IPG's line of "Curby" packaging solutions. The Curby Mini-Taper allows any size business to enjoy the carton sealing benefits of water-activated tape: security, strength and professional packaging.

■ TapeShooter® 404

Lever operated and rugged, this paper water-activated tape dispenser simplifies many specialty sealing applications found in fulfillment, distribution, mailing, retail and food service environments including sandwich shops, pizza restaurants and bakeries. When used to dispense paper water-activated tape, the TapeShooter 404 ensures a secure, professional seal on all uncoated paper, paperboard and corrugated boxes, mailers, wrappings and fillers.

■ Packer® 3s

This simple, steel frame pull-and-tear dispenser for reinforced and non-reinforced water-activated tape is easy to operate and is excellent for low-volume carton sealing. Features a unique subway feed to ensure uniform tension and consistent moistening.

ACCESSORIES AND OPTIONS

- **CodeTaper®** Allows printing directly on the tape as it is dispensed for added security with printed codes, logos and dates using standard or special inks.
- **Tape Aerial** Delivers and holds tape in an upright position for easy access and increased efficiency. Especially useful for long tape lengths of 36 inches or more.
- **Top Heater** Further enhances the performance of water-activated tape. Included with electric dispensers; optional with manual BetterPack 333 Plus.
- **Foot Pedal** Automatically dispenses tape with a touch of the foot for hands-free operation and higher productivity. Available in single and double pedal models.

WATER-ACTIVATED TAPE (WAT)

Central Brand®

Water-activated tape provides a seal superior to other methods whenever tamper-evidence, strength, security, and professional image are vital. Central Brand is a paper tape that forms a permanent bond, producing a tamper-evident, secure seal that cannot be removed without tearing the carton's surface, leaving visible evidence of tampering. It is a simple, cost-effective means to help protect packages from tampering and theft. Shippers also realize that water-activated tape can play a valuable role in their efforts towards improving the sustainability of their packaging.

Central Brand Tape is designed to maximize the performance of Better Pack dispensers, as well as other brands of water-activated tape dispensers. Available in multiple widths, lengths and styles including reinforced, Kraft (non-reinforced), white and custom printed.
